EDUCATION

Tufts University Medford, MA

Bachelor of Science in Cognitive Brain Science & Computer Science; GPA 3.5 *May 2029*

- Selected Courses: Intro to Computer Science, Linear Algebra, Intro to Psychology, Linguistics, International Relations
- Spring 2027: Data Structures, Cognitive Psychology, Biostatistics

SKILLS

- **Programming:** Python, C++, TypeScript, JavaScript, CSS, R/RStudio (ggplot2), Linux command line
- **Tools & Platforms:** React Native (Expo), Supabase, Vercel, FFmpeg, Figma, Paper, Conductor, Agentic Coding, Adobe Creative Cloud, Microsoft Office (Excel)
- **Languages:** English (Fluent), Urdu (Fluent), Burmese (Fluent), Chinese (Intermediate), Turkish (Beginner) | **Interests:** Brazilian Jiu Jitsu, MMA

EXPERIENCE

Human-Robot Interaction & Trustworthy AI Lab, Tufts University Medford, MA

Paid Research Assistant, Supervisor: Dr. Priyamvada Tripathi *September 2026 – Present*

- Recruit participants and support the design and execution of human-robot interaction (HRI) studies, assisting with IRB-compliant data collection
- Analyze and visualize study data in R using ggplot2 to identify trends in trust and usability outcomes across experimental conditions

Briefly Apps Inc. | briefly.briefa.net Medford, MA

Co-Founder & Member of Technical Staff, Product Design & Strategy *May 2026 – Present*

- Co-founded a podcast-intelligence mobile app that turns full episodes into a personalized feed of AI-selected audio highlights; preparing for iOS App Store launch
- Co-built an AI pipeline (AssemblyAI transcription, Groq LLM moment extraction, FFmpeg clip cutting) and a recommendation engine that ranks clips by topic affinity, importance score, and length preference, updating in real time with user engagement
- Lead product and UI/UX design from hand-drawn wireframes to Figma and Paper prototypes; direct AI coding agents through Conductor to build the React Native (TypeScript) interface, reviewing and refining generated code
- Grew social media presence organically to 2,700 followers and 1.5M+ cumulative views; drive business strategy and go-to-market planning

The RNA Institute, University at Albany Albany, NY

Research Student, Computational Biology *July 2025 – August 2025*

- Selected for a small, competitive national summer research program studying spinocerebellar ataxia, a neurodegenerative disorder, using bioinformatics tools and real-world RNA datasets
- Applied R, RStudio, and Linux command line to process and analyze genomic data, translating raw datasets into interpretable findings on trinucleotide repeat expansions and RNA toxicity
- Synthesized results from alternative splicing and gene expression analysis into a final research poster, presenting complex scientific insights to a mixed academic audience

Albany Medical Center Albany, NY

Anesthesia Technician *March 2025 – August 2026*

- Prepared and maintained operating rooms for 10+ daily surgical procedures across 34 ORs, 14 non-ORs, and 5 catheterization labs
- Inspected and troubleshot 50+ anesthesia machine and monitoring issues pre-procedure, reducing delays and directly improving throughput in a high-stakes clinical operation

New York State Senate Albany, NY

Production Intern *June 2024 – August 2024*

- Designed print and digital communication materials distributed statewide to hundreds of thousands of constituents

LEADERSHIP & ACTIVITIES

Tufts AI Safety Student Association Medford, MA

AI Policy Fellow *September 2026 – Present*

- Analyze draft AI legislation and governance frameworks in a policy fellowship covering responsible scaling, compute governance, deepfakes, and international strategy

Tufts University Undergraduate Admissions Office Medford, MA

Student Communications Group Intern *September 2026 – Present*

- Write blog posts for the Tufts Admissions website, translating student life, academics, and campus culture into authentic, accessible stories for prospective applicants and families

Tufts Student Alumni Collective Medford, MA

Video Production Intern & Class Ambassador *August 2025 – Present*

- Helped plan and execute large-scale philanthropic campaigns, including Tufts Giving Tuesday, which generated approximately $5.5 million in one day

Tufts Muslim Student Association Medford, MA

External Relations Chair & Student Advocate *August 2025 – Present*

- Built and manage an E-board dashboard (Supabase, Vercel) tracking events, sermons, speakers, and team productivity
